About Us

Ayyappa Scientific Sales is a full line distributor for wide range of scientific laboratory instruments and consumables, located in Hyderabad. We have over 20+ years of experience knowing the laboratory products supply industry. We are expertise in supply of world renowned laboratory instruments, test kits and reagents as per the need of the customers and to their satisfaction. We would ensure that you run your lab smoothly and efficiently by the state of the instruments we cater with.

Product Range

Water Quality

Test Kits

- ✓ Boiler Water
- ✓ Drinking Water
- ✓ Waste Water
- ✓ Food & Beverage

Process

- ✓ pH, Cond, Turbidity
- ✓ Chlorine, DO,
- ✓ COD, BOD & TOC
- ✓ Flow & Level
- ✓ Reagents for Chlorine Analyzers

- ✓ pH
- ✓ Conductivity
- ✓ ORP & TDS
- ✓ Turbidity
- ✓ Dissolved Oxygen (ppb and ppm)
- ✓ Ion Meter
- ✓ Colorimeter/Photometer (Single and Multiparameter)

Lab and Portable

- ✓ Pre-programmed photometers and Spectrophotometers
- ✓ Reagents for Spectrophotometers
- ✓ COD & BOD
- ✓ Flame Photometer
- ✓ Total Organic Carbon Analyser
- ✓ Portable Microbiology lab

Coal Analysis & Sample Preparation

- ✓ Bomb Calorimeters
- ✓ Thermogravimetric Analysers
- ✓ Ash Fusion Temperature Analyser
- ✓ Carbon and Sulfur Analysers (Coal and Metals)
- ✓ CHNS & O Analysers
- ✓ Online Coal Analyser for ASH, GCV and Elements
- ✓ High Temperature Muffle Furnace
- ✓ Oven
- ✓ Lab Pulverizer
- ✓ Sieve Shaker and Sieves
- ✓ Jaw Crusher
- ✓ Grinder

Analytical

- ✓ Analytical, Semi-Micro & Mirco Balances
- ✓ Moisture Balances
- ✓ Viscometers
- ✓ Rheometer
- ✓ Texture Analyser
- ✓ CHNS & O or Cl
- ✓ Nitrogen & Protein Analyser

General Laboratory

- ✓ BOD Incubators, Deep Freezers
- ✓ Heating Mantle, Magnetic Stirrer & Hot Plate
- ✓ Centrifuge
- ✓ Biological Safety Cabinets
- ✓ Autoclave & Water Bath
- ✓ Laminar Airflow Chamber & Fume Hood
- ✓ Microscope

Reagents, Chemicals, Glassware, Labware and turnkey laboratory packages.

Water Quality – Instruments, Test Kits & Reagents for Today's Water Analysis

- ✓ Wide range of Single Parameter Test Kits from Aluminium to Zinc
- ✓ Multi Parameter Test Kits with combination of various parameters as per application
- ✓ Reagents suitable for branded spectrophotometers for water analysis
- ✓ Pocket Testers for pH, ORP, Conductivity, TDS and Salinity
- ✓ pH, Cond, ORP, Turbidity & DO Meters for lab and field
- ✓ Multi Parameter – All in one for pH, Cond, TDS, DO & Redox
- ✓ Pre-Programmed Photometers & Spectrophotometers
- ✓ COD Package and BOD Package (New generation)
- ✓ Portable Microbiology lab
- ✓ Jar Test Apparatus
- ✓ Online Turbidity Analyzer
- ✓ Reagents for Online Chlorine Analyzer

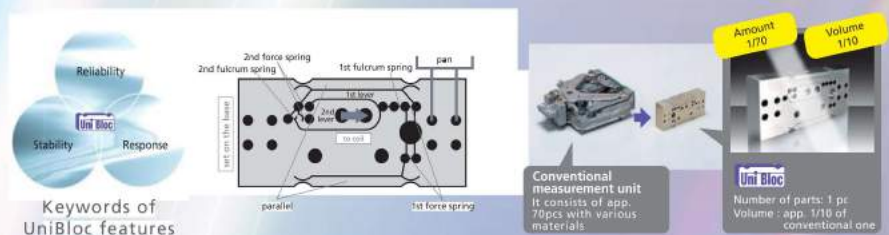

SHIMADZU
Excellence in Science

ELECTRONIC BALANCES
Professional in Measurement

UniBloc technology leads to a new world of measurement

UniBloc is created by high-precision electric discharge wire processing applied to a block of aluminum alloy and replaces the conventional electromagnetic balance sensor assembly. UniBloc's compact, uniform structure ensures stable temperature characteristics, excellent response time, stable corner-load performance and a long operational life.

The updated UniBloc technology expands the UniBloc balance lineup, which now ranges from semi-micro with a minimum display of 0.01 mg to precision platform balances up to 52 kg in capacity.

UniBloc family of balances

Leader in viscosity, texture analysis and powder flow instrumentation!

Viscometers

Rheometer

Texture Analyzers

Water Quality – Process

- ✓ pH
- ✓ Conductivity
- ✓ Dissolved Oxygen
- ✓ Chlorine
- ✓ Flow & Level
- ✓ Turbidity
- ✓ COD, BOD & TOC

Other Analytical and General Laboratory Instruments

- ✓ CHNSO and Cl
- ✓ TOC Analysers
- ✓ N/Protein analysers
- ✓ Carbon and Sulfur
- ✓ High Temperature Muffle Furnace
- ✓ Hot Air oven
- ✓ Deep Freezers
- ✓ Sieve Shaker & sieves and many more

We would also cater all your other laboratory needs including furniture & special grade chemicals.
